## Pro-Vision acknowledged with IDIS award

Pro-Vision Distribution, the national distributor of branded CCTV, Access Control and Public Address equipment, were acknowledged with an award from South Korea's largest surveillance manufacturer – IDIS - as part of their twentieth anniversary celebrations during the recent IFSEC exhibition.

IDIS recognised both customers and media partners by presenting awards during a press briefing followed by a champagne reception. This was just one of the many events IDIS will be holding throughout the year to celebrate two decades of surveillance innovation.

After opening the event with a brief history of IDIS over the past 20 years and a Q&A panel on the new solutions being showcased by the company, Dr Albert Ryu, IDIS President and Chief Operating Officer and Joon Jun, President of the IDIS Global Business Division, acknowledged the strategic partners and customers who have made two decades of IDIS success possible.

Pro-Vision have been supporting the IDIS brand since 2014 achieving great success with the DirectIP line-up as well as IDIS DirectCX - an advanced HD analogue solution that allows customers to leverage existing coax cabling.
