Pro-Vision offer D-Link Vigilance range

Pro-Vision Distribution Limited, the distributor of branded CCTV and access control equipment, are pleased to announce that they can now offer D-Link's new Vigilance range to the UK installer.

Simon Davies, Internal Sales Manager for Pro-Vision Distribution, said "The Vigilance camera range from D-Link offers a professional, full featured, high definition video surveillance solution that is easy to install and highly affordable. These new cameras are specifically designed to meet a diverse range of surveillance and environmental requirements - from stand-alone cameras that record videos without the need for any additional software or equipment to weather/vandal-proof cameras for harsh environments."

Simon continued "D-ViewCam - bundled free with D-Link network cameras - enables users to centrally manage multiple cameras for home or businesses. Supporting up to 32 network cameras and up to 64 users D-ViewCam is compatible with all current D-Link network cameras and video servers. It offers the benefits of digital monitoring and recording with a wide array of features including simultaneous video recording, playback and live view.

D-ViewCam also provides scheduled, motion and manual recording. Recorded files can be searched by video type and selected files can be played, edited and converted into AVI or ASF files. The e-map mode allows users to arrange a map with camera locations and orientation, whilst other additional features such as auto-patrol, rotate, zoom, and focus deliver optimal control over video surveillance. Plus you can keep an eye on your surveillance cameras at any time, anywhere with D-Link's D-ViewCam Mobile app which makes it easy to check on your home or business 24/7 wherever you are."
